Five Mirages in India's fleet for Cobra Warrior drill

Going full-throttle for a multi-nation air combat wargames, India on Sunday dispatched Mirage-2000 fighters and other aircraft for the 'Cobra Warrior' exercise in the UK.

Five Mirage-2000 jets, two C-17 Globemaster-III strategic airlift planes and one IL-78 mid-air refuelling aircraft, along with 165 IAF personnel, flew from the Jammu air-base for the exercise at Waddington. "The Cobra Warrior, scheduled from March 6 to 24, is a multilateral exercise in which air forces from the US, Finland, Sweden, South Africa and Singapore will be participating, alongside the Royal Air Force and IAF. The aim is to participate in diverse fighter aircraft engagements and learn from best practices of various air forces," an IAF spokesperson said. **P13**

EPE & Meerut away paving the green way

The construction of Eastern Peripheral Expressway (EPE), which stopped the entry of large number of polluting trucks to Delhi, has the potential to avoid 15.3 lakh tonnes of CO2 emissions in 20 years and similarly the Delhi-Meerut Expressway has potential to prevent nearly 2.2 lakh tonnes of CO2 emissions, according to a study by CRRI and TERI.

The expansion of national highways and expressways impacts fuel consumption as vehicles spend less time in congested traffic, the report says. It also estimates that 575 MTs of diesel will be saved in 20 years because of EPE. **P7**
